## HISTORICAL NOTE

Lancaster County, located in the southeastern part of Nebraska, lies in the Salt Creek Basin. The abundance of salt proved to attract early settlers since the commodity was needed for food preservation. Later attempts were made to market the product on a large scale.

On March 6, 1855, the Territorial Legislature, meeting in the Capital, Omaha, passed an act to define the boundaries and establish a seat of justice for Lancaster County. William Corfield, Gideon Bennett, and William Kempton were appointed commissioners to locate a county seat. Chester, a paper town on the Salt Creek about eight miles south of present day Lincoln, was selected in 1856. In the same year the county boundaries were redefined. Again in 1859 the county settlers appointed a commission to determine a new county seat. The commission, composed of A. J. Wallingford, J. J. Forest, and W. T. Donovan, selected Lancaster (now Lincoln). Lincoln remained a paper town for several years until it was platted in 1864. Lincoln was officially designated as the county seat of Lancaster County on February 12, 1869.

After Nebraska attained statehood in 1867, Lincoln, Lancaster County, became the state capitol. This along with the coming of the railroads, insured the progress of Lincoln and the county. Today Lancaster is the second largest populated county in the state. The population in 1990 was 213,641.

Lancaster county was named after the town and county of Lancaster in Pennsylvania, from Lancaster County, England.

Scope and content note:

Subgroup Four, County Clerk, is divided into seven series:

- 1) Marriage Records, 1866-1955
- 2) Professional Registers, 1881-1986
- 3) Bond Records, 1867-1971
- 4) Brand & Estray Records, 1870-1907
- 5) Miscellany, 1872-1956
- 6) Special Districts, 1891-1989
- 7) Articles of Incorporation, 1867-1965.

Series One consists of 36 volumes of marriage docket on 16 reels of 35mm microfilm, and blocks of dockets for the years, 1917-1929, 1936-1939, and 1946-1955. The Archives still retains original marriage licenses for the years 1870-1905 and some misc. marriage records, 1875-1891. Most of the remainder of this subgroup has not been inventoried and dates are not available. The last series includes the articles of incorporation for the county, 1867-1965, containing both re-filmed silver negatives and duplicate negatives from a recent re-film of the records.

**Note: These microfilms are duplicate negatives of security microfilm produced by Lancaster County in 1973. The quality is not good and many pages are blurred or hard to read due to density problems with the microfilm. They were received by the Archives in 1974 and duplicates from the county filed in the reference room in 1999. As the film of the early dockets has not yet been added, the original numbering system of the county is retained. These dockets contain judgments for both civil and criminal cases. The Archives is aware that this microfilm does not meet State Micrographics Standards and is of poor quality. It is provided for reference use because of its availability and because the original volumes are stored at our off-site storage and may not be accessible to some patrons because of their personal time restrictions. Some pages may not be able to be copied. Patrons should ask the advice of reference staff before putting money in the copy machines.**

## **SUBGROUP ELEVEN SUPERINTENDENT OF SCHOOLS, 1870-1981**

Scope and content note:

Subgroup Eleven, Superintendent of Schools, is divided into ten series:

- 1) School Census, 1875-1972
- 2) School District Minutes, 1926-1979
- 3) Superintendent's Office, 1869-1926
- 4) Annual Reports, 1885-1981
- 5) Financial Reports, 1886-1981
- 6) Miscellaneous Reports, 1909-1915
- 7) School District Formations, 1869-1883
- 8) Teachers' Records, 1899-1965
- 9) Confidential Records, 1948-1980
- 10) Miscellany, 1908-1923 & n.d.

Series One contains the school census of Lancaster County on microfilm, by year and district. These returns are not complete for all years since some have been lost and others are in fragmentary condition because of their extreme fragility. The entire year of 1906 was not available for microfilming, and has presumably been lost. To fill some of the gaps, microfilm accessioned by the Archives in 1996, and produced by the Lincoln Public Schools, of census cards, 1889-1917, has been copied for the reference room. This microfilm is not of the best quality. The master negative was used for reference and the original records were destroyed after filming. This is the only record available and the condition of the microfilm cannot be improved. Names are spelled incorrectly in many instances and patrons are encouraged to use their imagination as to possible spellings of a name. School census records, the remaining files of various school districts are incomplete in terms of time and type.

Series Two contains minutes of Annual District Board meetings as reported to the Superintendent of Schools.

Series Three includes a general register, 1869-1896, which records boundary information, teachers' exams, district officers, annual reports, teachers' work, special & annual reports, and daily work of the Superintendent. Also included are six boxes of general correspondence of this office, 1905-1923, and a book of orders made by the Superintendent, 1885-1926.

Series Four consists of Annual Reports of the District Schools to the Superintendent giving statistical and financial information.

Series Five contains the annual financial reports of the school districts, 1885-1981, to the Superintendent.

Series Six consists of school district teachers' monthly reports, mainly statistical for the year 1909/1910. Some reports give the names of children who have been absent since the last report.

\* Designates presence of Confidential Health Records (Sec. 79-4,157, Nebr. R.R.S., 1943). Restricted to Staff use only.

Series Seven, Superintendent of Schools, consists of two volumes describing the formation, land descriptions, tax levies, and changes in school districts, 1870-1883.

Series Eight includes a register of all teaching certificates issued, 1889-1975; and copies of teachers' certificates and information on examination grades, 1895-1915; and a volume registering teachers' examination grades, 1943-1949.

Series Nine consists of census records of handicapped children, 1968-1980, and a special report on Handicapped Children, 1948-1972. These records are considered confidential by Nebraska Statute (79-4,157 & 84-712.05, R.R.S.1943).

Series Ten, Miscellany, contains information on various activities in which Lancaster County School Districts participated, 1908-1923, and printed matter, n.d.

Rolls A-1 thru A-39 (following reel #15) were copied from security microfilm produced by the Lincoln Public Schools, date unknown. The master negatives were used for research and the copy quality and condition of the microfilm is very poor. However, the original records were destroyed after being put on microfilm and this is the only record remaining and fills the gap for School Dist. #1 missing census records. Names are misspelled and may be misfiled. Check possible different spellings of a student's name.

Rolls 1-15 are rural census only. City of Lincoln begins on roll #16, 1894 - Roll #19 (1919)  
City & Rural continues from Roll #15 with Rural Dists. #2-#139, 1919, on roll #19  
Rolls #30-#45 are restricted to staff use only due to the existence of census of Handicapped.
